Simply transfer to a serving dish, temper, heat and serve. Each 250g serving is portion controlled for meat, vegetable and starch.

MORE

Trepuree's attractive presentation, delicious aroma and wide selection of pureed entrees will provide a nutritious, safe, pleasurable mealtime experience for those with swallowing difficulties

PREPARATION

No need to transfer to serving dish. Simply thaw and heat (do not vent or remove film) in same "single use dish". If using Steamer method of retherm, place tempered meals in insert pan covering pan tightly with plastic wrap and foil. Heat for 45 min or to an internal temperature of 165 F. For retherm carts, conventional and convection ovens and heating from frozen, please contact your local Campbell Healthcare Representative.

HANDLING

Do not re-freeze. Do not use if film is torn or missing. Do not hold refrigerated product longer than 2 days.

STORAGE

Shelf Life: 15 months

Storage Temperature: C
